night owl offers a comprehensive look at the build build build program president rodrigo duterte s medium term development strategy to

effectively usher in philippines golden age of infrastructure it follows and provides a first hand narrative of the daunting details of tasks reforms and projects undertaken by department of public works and highways secretary mark villar night owl sheds light into the difficult challenges critiques and difficult decisions faced by the build build build team and dives into the consequences subsequently witness heartwarming stories of filipinos whose lives have improved with the completion of roads bridges rail flood control projects airports seaports and classrooms night owl is a compelling visual narrative and informative storytelling of the philippines journey of change and transformation as it rallies the philippines from a tiger cub economy to a first world country there is no question that physical infrastructure impacts on the quality of human life every new road or bridge that connects a remote barangay to the town proper opens new opportunities for a hundreds to sell and buy goods and interact with other communities every schoolroom built brings literacy and a chance to improve the lives of thousands of filipino children every health center put up or potable water source developed makes numerous lives healthier and every seaport or airport constructed or improved connects communities around it to the rest of the world public investment in physical infrastructure is an imperative night owl documents the making of the physical infrastructure projects that the duterte administration completed in six years under its build build build program but beyond this it expounds on the vision of an administration determined to take bold steps to close the country s infrastructure gap and the key persons who pushed hard to realize this ambitious program this book reveals the strong political will of president rodrigo duterte and his people to uplift the quality of our countrymen s lives night owl is as much an undisputable record of what president duterte and his team have achieved to upgrade our country s physical infrastructure as it is a well documented tribute to the sacrifices of the men and women of this administration both the early birds and the night owls who toiled day and night to deliver on their commitments for the next set of technocrats who want to know what must come with political will to accomplish such a tremendous undertaking the doubters who won t believe unless presented with figures and photos the armchair travelers who wish to experience our provinces vicariously and the families and friends of the people who took part in constructing these school buildings evacuation and health centers roads bridges flood control projects seaports and airports this book is a good read hon gloria macapagal arroyo 14th president of the philippines build build build is one of the best legacies of the administration of president rodrigo duterte that carve a profound niche in our nation s history the roads bridges school buildings health centers irrigation systems airports seaports and other projects under this centerpiece program helped propel our country s economic development and infrastructure modernization night owl authored by anna mae lamentillo not only records the infrastructure achievement of the duterte administration but also provides readers with anecdotes and insights on such challenging but laudable enormous undertaking this book is a good read jose de venecia jr former five time speaker house of representatives build build build has brought filipinos not only hope for a better future but also concrete opportunities for growth of our communities especially those in the countryside also worth noting are projects that are in line with our advocacy on disaster resilience and sustainability the flood risk management projects in our rivers the leyte tide embankment project the metro manila priority bridges seismic improvement project and many others make our communities safer from natural hazards such as flooding landslides

Yolanda like super typhoons and storm surges and the big one roads that have been built with bike lanes and sidewalks address our call to promote sustainable mobility options. Night Owl by Anna Mae Lamentillo provides us statistics and the stories of these projects, the men and women behind them, the struggles that had to be overcome and the early triumphs brought about by Build, Build, Build. Congratulations on this worthy read. Deputy Speaker Loren Legarda, three-term senator and representative of the lone district of Antique, the government's Build, Build, Build program provides Filipinos an optimistic view of the future. These infrastructure projects propel growth in communities and provide better, safer and faster market access to local producers. It has also created a Philippine macroeconomic environment that is encouraging for the business sector, particularly the consumer and retail industry. Congratulations to Anna Mae Lamentillo for chronicling these Build, Build, Build accomplishments through Night Owl. Robina Gokongwei, PE, President and CEO of Robinsons Retail Holdings, Inc. Night Owl is a remarkable journal of the government's Build, Build, Build program from the account of someone who is personally and passionately involved in its implementation. It tells us why Build, Build, Build is a legacy of the Filipino people, it is the work of the government, the citizens who contribute to the public coffers, and the millions of Filipino workers who have completed the roads, bridges, school buildings, flood mitigation structures, evacuation centers, airports, and seaports in all the country's regions. I am not surprised that Anna Mae is devoted to Build, Build, Build. She saw herself how these projects opened opportunities, especially for those who live in the countryside. How more Filipinos now dream and aspire for a better future. These ideals resonated with Anna Mae, who learned much from her education as an alumna of the College of Development Communication, UP Los Baños, and the UP College of Law. Night Owl is a journal of our nation's growth in terms of infrastructure development in the last five years. It narrates how this ambitious program, despite the criticisms and cynicism, delivered and paved the way for Filipinos to dream bigger. Hopefully, these stories will inspire more leaders to be equally generous in their ambition for our nation. Congratulations, Anna Mae, for recording history through Night Owl. Atty. Danilo I. Concepcion, President, University of the Philippines. The book Night Owl provides a deeper insight into the government under President Duterte's initiative to rehabilitate and re-establish the Philippines as a powerhouse of innovation and ingenuity. The research is impeccable, and the delivery of the narrative allows the reader a journey into the beginnings of a very promising venture. The Build, Build, Build initiative has delivered, without a doubt, a necessary read. The book covers, with meticulous detail, significant projects which shows the milestones of what this administration had reached and inspires us collectively to maintain the momentum built. It is a hard-evidenced and moving manifesto of the promising future the Philippines is promised. Hon. Samantha Louise Vargas Alfonso, Cagayan Second District Representative. Night Owl is not just a chronicle of the Build, Build, Build program of the administration of President Rodrigo Duterte. It is also the story of the passion, hard work, and perseverance of the women and men of the Department of Public Works and Highways (DPWH) who overcame the bureaucratic and political challenges of achieving the dream of providing our people a better quality of life through world-class infrastructure. Anna Mae Lamentillo displays her credentials as a development communicator by expertly weaving stories of obstacles and triumphs of this administration's ambitious attempt to usher in the country's golden age of infrastructure. I particularly enjoyed reading the chapter on diplomacy where Ms. Lamentillo explained the

connection between statecraft and infrastructure development i have always thought that one of the more underrated achievements of this administration is with regard to diplomacy this book clearly demonstrates how president duterte used foreign relations to pursue the interest of the filipino people this book is a must read for people who want to go beyond the partisan social media altercations and fake news that surround the flagship program of the duterte administration it is a must read for people who wants to understand how to pursue a worthy vision even in the midst of political noises i congratulate ms lamentillo for writing this book which confirms what people asia has already proclaimed that she is indeed a woman of style and substance many villar former senate president night owl by anna mae lamentillo provides a front row seat to the duterte administration s build build build program it s a must read for leaders who seek the formula to effect lasting positive change some of the takeaways from this book the only way to realize a vision is to have the political will to make the necessary reforms no matter how drastic they are our ambitions should match our actions we cannot take baby steps if we want to bring the philippines to greater heights kevin tan ceo and vice chairman of alliance global inc as if looking through the author s eyes the reader will be able to witness the step bystep progress of the build build build program of the duterte administration the book featured the humble beginnings of the program the hurdles it encountered and its current accomplishments it also introduced the people behind the program and of course the most important contributor the filipino people the program s goal to connect luzon visayas and mindanao through land has slowly become a reality within five years the program produced kilometers of roads and thousands of bridges it was also able to complete flood control projects airport projects and seaport projects going beyond transportation evacuation centers and classrooms were also built the build build build project did not only focus on the connections between the areas of the country the project also considered how these infrastructures contribute to the holistic development of the country the night owl gives the reader a front row view on the progress of the build build build program through the past years the program might not reach its full actualization for a few more years but it indeed laid a foundation for a better future of the country brian poe llamanzares philanthropist entrepreneur public servant anna mae lamentillo s book night owl provides a bird s eye view of the government s build build build program it s her finishing touches her additional contribution to her work as the project s chairperson while she was with the dpwh inside the pages of night owl one can read about and see the developments that have helped move the country forward even during the most challenging years brought by the covid 19 pandemic emilio yap iii president and vice chairman manila bulletin publishing corporation
