logic programming is an emerging approach to computer science where programs are viewed as sets of logical axioms and computation is viewed as carefully controlled logical deduction the approach currently finds practical realization in the programming language prolog this volume contains details of research in the field with a special emphasis on applications including expert systems natural language parsing and analysis database management and knowledge acquisition circuit analysis and hardware verification

new york magazine was born in 1968 after a run as an insert of the new york herald tribune and quickly made a place for itself as the trusted resource for readers across the country with award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating new york as both a place and an idea

the presidency of john f kennedy continues to fascinate even as it also continues to inspire heated debates between admirers and detractors of camelot's fallen king now readers can gain a new appreciation of jfk in this thoroughly revised and updated edition of james giglio's bestselling study widely acclaimed as the best and most balanced book on jfk's white house years giglio incorporates the voluminous archival materials made available in the last fifteen years including the declassified documents on crucial foreign policy affairs and white house medical records that contradict the image of kennedy's youth and vigor he stresses the extent to which domestic and foreign policies were interconnected at a time when the cold war dominated national life and reveals his new appreciation for jfk's prudence in his handling of such enormous challenges as the cuban missile crisis and the emerging war in vietnam giglio shows kennedy to be the most medicated one of the most courageous and perhaps the most self absorbed of our presidents he reviews the physical ailments and heavy prescriptions that were kept out of the public eye and catalogs sexual indiscretions ranging from marilyn monroe and socialite florence pritchett to low level white house employees and

even virtual strangers surveying this field of conquest giglio suggests that jfk's sexual obsession could easily have affected his presidency even more during a second term his work also amplifies coverage of key issues like civil rights the cuban missile crisis and vietnam and reevaluates many of the questions surrounding the assassination maintaining that even with the existence of a conspiracy still doubtful the case is far from closed like the first edition this new edition provides a sharp and thoughtful analysis of both domestic and foreign affairs and underscores that despite his undeniably brief tenure in office the state of the nation actually did improve on kennedy's watch featuring an expanded bibliographical essay and twenty two photos from the jfk library the presidency of john f kennedy remains the definitive appraisal of camelot's kingdom

noting how jackie's celebrity and devotion to privacy have for years precluded a more serious treatment perry's story illuminates kennedy's immeasurable impact on the institution of the first lady perry illustrates the complexities of jacqueline bouvier's marriage to john f kennedy and shows how she transformed herself from a reluctant political wife to an effective confident presidential partner perry is especially illuminating in tracing the first lady's mastery of political symbolism and imagery along with her use of television and state entertainment to disseminate her work to a global audience

catton treats the diem government on its own terms rather than as an appendage of american policy focusing on the decade from dien bien phu to diem's assassination in 1963 he examines the vietnamese leader's nation building and reform efforts particularly his strategic hamlet program which sought to separate guerrilla insurgents from the peasantry and build grassroots support for his regime catton's evaluation of the collapse of that program offers fresh insights into both diem's limitations as a leader and the ideological and organizational weaknesses of his government while his assessment of the evolution of washington's relations with saigon provides new insight into america's growing involvement in the vietnamese civil war

inside the pentagon papers addresses legal and moral issues that resonate today as debates continue over government secrecy and democracy's requisite demand for truthfully informed citizens in the process it also shows how a closer study of this signal event can illuminate questions of government responsibility in any era when daniel ellisberg leaked a secret government study about the vietnam war to the press in 1971 he set off a chain of events that culminated in one of the most important first amendment decisions in american legal history that affair is now part of history but the story behind the case has much to tell us about government secrecy and the public's right to know commissioned by secretary of defense robert mcnamara the pentagon papers were assembled by a team of analysts who investigated every aspect of the war ellisberg a member of the team was horrified by the government's public lies about the war discrepancies with reality that were revealed by the report's secret findings his leak of the report to the new york times and washington post triggered the nixon administration's heavy handed attempt to halt publication of their stories which in turn led

charles walcott and karen hult maintain that the organization of the white house influences presidential performance much more than commonly thought and that organization theory is an essential tool for understanding that influence their book offers the first systematic application of organizational governance theory to the structures and operations of the white house office using organizational theory to analyze what at times has been a rather ad hoc and disorganized office might seem quixotic after all the white house office exists within a turbulent political environment that encourages expedient decision making and every four to eight years it must be reinvented by presidents who have their own theories and preferences about how to organize a staff to serve their policy needs but walcott and hult argue that white house staffs are not simply puppets of presidential preference and style yes staff structures evolve primarily from presidents strategic responses to external demands but those structures in turn significantly influence how the executive branch perceives and responds to further demands the first part of their book lays out the theoretical argument the second examines white house outreach congressional liaison press relations personnel selection executive branch oversight and interest group and intergovernmental liaison the third focuses on white house handling of policy development and implementation the fourth analyzes staff structures that facilitate the operation of the presidency itself presidential writing and scheduling staff management and cabinet coordination the book concludes by identifying general patterns in the emergency nature and stability of governance structures in the white house original and instructive governing the white house provides a much needed primer on the inner workings of the white house staff and will be an essential volume for anyone studying the presidency
